The Modesty of Women

faturally makes them shrink from the daturally makes them shrink from the indelicate questions, the obnoxious examinations, and unpleasant local treatments, which some physicians consider essential in the treatment of diseases of women. Yet, if help can be had, it is better to submit to this ordeal than let the disease grow and spread. The trouble is that so often the woman undergoes all the annoyance and shame for nothing. Thousands of women who have been Thousands of women who have been cared by Dr. Rerce's Favorite Prescription write in appreciation of the cure which dispenses that the examinations and local treatments. There is no other medicine so sure and safe for delicate women as "Favorite Prescription," It several schools of medical practice. Some of these numerous and strongest of professional endorsements of its ingredients, will be found in a pamphiet wrapped around the bottle, also in a booklet mailed free on request, by Dr. R. V. Pierce, of Baffalo, N. Y. These professional endorsements should have far more weight than any amount of the ordinary lay, or and her children at their home on Tower and her children at the house of the service was holy communion to the country squire, master of the great estate which covers 43,000 acres of hill and valley in the most rugged part of Orange country.

MR. HARRIMAN'S FUNERAL. The body of Edward H. Harriman was carried yesterday from the great medicine so sore and safe for delicate women as "Favorite Prescription." It is to the sort of the sort

dorsements should have far more weight than any amount of the ordinary lay, or non-professional testimonials.

The most intelligent women now-a-days the sist on knowing what they take as medicine instead of opening their mouths like parishioners of the church who, on account of layer than the sist of the church who, on account of layer than the sist of the church who, on account of layer than the sist of the church who, on account of layer than the sist of the church who, on account of layer than the sist of the church who, on account of layer than any amount of the ordinary lay, or non-professional testimonials. count of lack of space, were unable to

The funeral was private, and only those who were personal friends of the

Episcopal Church was conducted by Dr. archdeacon of the Oathedral of St. John the Divine, in New York.

It was 5 o'clock when Archdeacon Nelson took a handful of earth, and, sprinkling it over the bed of lilies that hid the metal casket, consigned the body of Edward H. Harriman to the earth of the spot he loved best.

Mrs. Harriman and her children drove home immediately after the cere-

Every one of Mrs. Harriman's friends in Arden and Torner-and they are legion-received a remembrance of the day when the flowers that have been arriving by every train for the past 24 hours were distributed. Altogether, the flowers would have filled three express cars. Flowers literally covered the grass outside the church. Inside they were tank-ed about the altar until the fragrance in the little sanctuary was almost over-

powering. It was at Mrs. Harriman's request that these gitts of great men and organi-zations from all parts of the country were distributed about the neighborhood instead of being silowed to fade. See told her messer gers that she knew this was the way her husband would have wished it.

> THE NORTH POLE, AS COOK FOUND IT.

Cook found the ice pack more active than ever before at the eighty-eighth parallel and some cracks which were paickly cemented up by new ice.

He found the last 100 miles to the Pole paved with smooth ice, so that traveling was extremely easy. He described the Pole as discovered by him in April, 1908, as a sea of purple snow and ice. "with no life nor land." He records the temperature at the Pole on April 21, 1908, to have been 38 degrees for sale that valuable busi-

These conditions, according to Cook, enabled him to average 15 miles per day on his dash to the top of the earth.

AS PEARY FOUND IT.

Peary found at the eighty eighth parallel "strong drift ice to south," but with new ice forming over cracks that buckled" as the sledges passed. He made his longest marches near the Pole, and declares the "going" was the best of the entire trip.

He found nothing but snow and ice,

with no traces of land, and he records the temperature at the Pole on April 8, 1909, as 33 degrees below zero.

These conditions, according to Peary, enabled him to average 26 miles a day in his dash to the top of the earth.

STORM WRECKS TOWN. La Paz, the oldest settlement of the Californias, is in ruins. The most terrific storm ever known there has wrought havoc in andabout the old pueblo. Seven lives are known siready to be lost. In many places the water is 4 feet deep in the streets and some of the thoroughfares are channels for raging torrents. Houses have crumbled into the flood and many thers are badly damaged. The greatest misery exists, especially among the poor townspecple, the majority of whom have lost everything. News from the country districts indicates that the devastation there has been great. The sky was overcast and the darkness added to the terror of the people. Many of them were convinced that the end of the world was at band and crowded the old mission church in a delirium of fear. There are few Americans in La Pas and none of them has been injured.

DECREASE IN CHARTERS. Seven hundred and fifty-one charters were granted by the State Corporation Commission during the year 1908, according to the sixth annual report of the commission, which has just come from the presses and been made public. This is a decrease from previous years, the record for each year during the life of the commission being as follows: 1903, 483; 1904, 563; 1905, 755; 1906, 1,039-1907, 946; 1908, 751. The report contains 1,557 pages, and is a mass of sta-tistical matter. — [Richmond Times Dis-

WHAT CONGRESS COULD HAVE DONE.

It has been ciphered out by a genius for mathematics that during the summer session of Congress, which was of doubtful value to the country, the members thereof could have moved 10,000 acres They could have cut 8,000 cords of

stove wood for grieving widows.

They could have loaded, hauled and moved away 20,000 tons of timothy bay. They could have hord 20,000 acres of

They could have hilled 1,000,000 hills of potators.

They could have split and laid up 100

miles of fencing.

They could have gathered and prepared five tons of dried apples.

They could have whitewashed 100 miles of picket fence. They could have prepared the ground and planted the seed for enough turnips

to supply all the orphan asylums in They could have visited every idiat and lunatic saylum twice over, spending

three days on each visit. Each and everyone of them could have put in a three months sentence in

a county juil and been restored to society and respectability.

They could have stolen the Yellowstone Park 27 times over.

They could have burglarized 10,000 hones, stolen 50,000 cows, and "touched" 600 banks, and yet all their valuable time has simply been frittered away. -Fitchburg Sentinel.
